Basel –

Switzerland's capital of art and culture

Nestling in the heart of Europe in the three countries corner where Switzerland, Germany and France meet, Basel is a pocket-sized metropolis that combines proverbial Swiss quality with a multicultural population. This makes the city unmistakably open-minded, happy and innovative.

Basel is so easy to get to

Only a 10-minute drive from the city centre, Basel's EuroAirport – by the way the only bi-national airport in the world – is served by a number of international airlines. Together with neighbouring Zurich Airport, it enjoys connections to all European airports and to more than 200 intercontinental destinations. Located in the centre of Europe, Basel is a major transportation hub. Its three railway stations – the Swiss SBB, French SNCF and German Badischer Bahnhof offer excellent connections to far and wide.

The art of so much art

The city sparkles with all kinds of culture. Nearly 40 museums with their long-established collections and spectacular special exhibitions are the foundation of Basel's reputation as a city of art and museums. However, art is to be found not only in the many museums but is encountered all over the city, and exciting contrasts are created by the presence of classical patrician houses and mediaeval churches side by side with modern buildings designed by major international architects such as Herzog & de Meuron or Renzo Piano.

Gourmet paradise

Basel whets one's appetite in the most varied and delightful ways. What applies to its remarkable cultural heritage is also true of its culinary scene. Thanks to the city's location, its cuisine is both excellent and eclectic. Experience «culture unlimited» and an unrivalled savoir-vivre: the sunny banks of the Rhine, the romantic streets of the excellently preserved Old Town and countless boulevard cafés invite you to stroll and enjoy. In trendy bars or historic taverns – every taste is catered for.
