

How the best perform

Workshop by Hu-Friedy Mfg. Co. LLC

Hu-Friedy is delighted to invite you to an extraordinary workshop in Basel. Join your global colleagues for an engaging evening of education and networking. Keep abreast of the latest developments in instrumentation to maximize your clinical potential. Renowned expert Anna Pattison, will discuss how to achieve success in non-surgical periodontal therapy using new, thin modified Periodontal Maintenance instruments. Technique videos will demonstrate the use of these uniquely modified Gracey shanks and blades for patients with tight or thin tissue. Armed with knowledge of the most recent advances in instrumentation, this course will teach you best practices to help your patients to achieve periodontal health. Come away with cutting edge information that will help to make your everyday work experience more rewarding.

Then enjoy an evening of cocktails, hors d'oeuvres and networking. Join us for this complimentary workshop and evening of networking.
