

Sunstar GUM®
proudly invites You to join us for:

THE ART OF INTERDENTAL CLEANING

We spend our working lives encouraging our patients to use interdental aids, very often with little success!

This presentation will take a practical look at the range of aids and revise the evidence supporting the advice we give our patients, we will reflect on the issues of patient compliance and motivation.

This will be interspersed with some humorous reflections on the “art” of interdental cleaning and the difficulties our patients report.

...A cocktail reception will follow the workshop to ensure networking ...

Language:
English
